COMMERCIAL TERMS

COA scope	Green Future will provide the laboratory-issued COAs for purity and germination testing for the four previously agreed strains. The laboratory results are currently pending and are expected to be available shortly. If a laboratory-issued COA is also required for AF102 Critical 2.0 Auto, a sample of this strain will be submitted for purity and germination testing upon receipt of the 50% advance payment.
Lead time	Option A - Shipment with completed COA: approximately 37 days in total, including up to 30 days for laboratory testing and approximately 7 days for delivery. Option B - Shipment before completion of the new COA: approximately 7 days after the order has been fully prepared and packed. The COAs, including the COA for AF102 Critical 2.0 Auto, will be provided separately once the relevant laboratory testing has been completed.
Payment	50% advance payment is required before laboratory testing, order processing and seed preparation begin. The remaining 50% is payable before shipment. Goods will be dispatched only after full payment has been received.
Pack format	To be mutually agreed upon by Green Future and T.M.Y Agro Trade Limited Partnership (Smile Seed Bank).
Retail packaging	Retail packaging for these 20 units is provided free of charge as a one-time exception for this order. Any future orders involving larger quantities of retail packaging will be charged according to our standard pricing matrix.
Price basis	Seed prices follow the latest agreed price table. THB conversion used here: EUR 1.15 per seed = THB 44.21 per seed.
