Thailand

Confirmation and Next Steps Following the GF × SSB Meeting**T.M.Y Agro Trade / Smile Seed Bank × Green Future**

Dear Mr. Kawila and the Smile Seed Bank Team,

Thank you for sending us the meeting summary.

Green Future has reviewed the document and confirms its agreement with all points discussed and recorded during the meeting. Please find below our updates and additional clarifications.

1. Packaging Samples

Yesterday, we received the packaging samples and have already sent you a video showing the samples received.

Green Future will now conduct a more detailed inspection of the packaging. Once the review is completed, we will inform Smile Seed Bank of the results and provide our final feedback.

Based on our preliminary review, the packaging appears suitable. However, we would still like to check the quality of the heat seal and confirm the proper attachment and fit of the **5.5 × 5.5 cm label**.

2. Use of Green Future Farm and Production Facility Photos

As Julia confirmed during the meeting, Smile Seed Bank may use approved photographs of Green Future's farm and GACP-certified seed production facility for marketing purposes, as well as supporting materials for clients' GACP applications, if such materials are required by the relevant government authorities.

However, before any photographs are used or shared with clients, we kindly ask Smile Seed Bank to provide Green Future with a list specifying exactly which photographs are required, including the relevant areas, rooms, facilities, objects, angles, or types of photographs needed.

Green Future will review the requested list and provide the appropriate photographs approved for use.

This is intended to ensure that both parties have a clear mutual understanding of which materials are authorized for use and for what specific purposes.

3. Lead Registration / Client Protection

With regard to Section E, Items 3 and 4, Green Future understands Smile Seed Bank's concerns and is prepared to begin working under these conditions.

We would like to clearly confirm that Green Future has no intention of bypassing Smile Seed Bank, independently approaching clients introduced to Green Future by Smile, or taking over such clients and making direct sales to them outside of Smile.

We respect Smile Seed Bank's role in identifying, developing, and bringing in clients, and we believe that client relationships established by Smile should be appropriately protected.

To ensure that this matter is transparent and comfortable for both parties, Smile Seed Bank may propose a suitable Lead Registration process or another client-protection mechanism, including what information should be recorded, how clients should be registered or tracked, and what confirmations or assurances Smile would require from Green Future.

We are open to reviewing the proposed mechanism and jointly agreeing on a practical working process. If necessary, these terms may later be formally incorporated into the Distribution Agreement.

For the pilot project, Green Future confirms that we will not intentionally bypass Smile Seed Bank or make direct sales to clients introduced to Green Future by Smile.

Our goal is to build a long-term, mutually beneficial partnership based on trust and transparent cooperation.

4. Consultation with DOA Regarding Product Labeling

On **31 August 2026**, Julia had a preliminary consultation with the Department of Agriculture (DOA) regarding the product label.

DOA explained that the Department does not formally review or approve product labels and therefore cannot provide confirmation that a specific label has been officially “reviewed” or “approved” by DOA.

Instead, DOA provides examples of correctly prepared labels that companies may use as a reference when preparing their own labels in accordance with the applicable requirements.

Therefore, Green Future will not be able to obtain official written confirmation or formal approval from DOA for a specific label design.

A sample of a correctly prepared label provided or referenced by DOA is attached to this email for Smile Seed Bank’s reference.

We propose that the final version of the label be prepared based on this sample and include all mandatory information required under the applicable regulations.

5. PI / Pro Forma Invoice / Quotation

Under our current process, the Pro Forma Invoice (PI) is used as the Quotation.

Green Future can revise the current PI/Quotation in accordance with the agreed configuration of **4×50 and Option 1**. The date of the original document will remain unchanged.

Please also note that our prices are reviewed every **14 days**. Therefore, once the relevant quotation validity period has expired, Green Future will issue an updated Quotation reflecting the current price.

As a Quotation itself does not constitute a reservation of stock, we kindly ask Smile Seed Bank to reconfirm product availability with Green Future before placing an actual order for a client.

At that stage, we will check whether the required strains and quantities remain fully available in stock or whether the available quantity has changed since the previous Quotation was issued.

This will allow both parties to reconfirm the current stock availability and the applicable price before the PO is issued and payment is made.

Overall, Green Future confirms the contents of the meeting summary and is ready to proceed with the next stages of our cooperation.

We would also like to emphasize that transparent, fair, and long-term cooperation with Smile Seed Bank is very important to us.

In particular, regarding client protection, our intention is to cooperate with Smile rather than compete for clients introduced by Smile within the framework of our partnership.

We are therefore ready to agree on a clear and practical Lead Registration and client-protection mechanism so that both parties can confidently develop the cooperation and have assurance that the agreed arrangements will be respected.

Sincerely,

Yevhen Karasov

Director

Green Future (Global) Co., Ltd.
